Mission

Sexual assault can happen to anyone, anywhere; regardless of age, ethnicity, economic status, lifestyle, religion, culture, sexual orientation, gender, or ability.

Sexual assault is sexual contact made without someone's consent. It can be terrifying, humiliating, and confusing. Childhood sexual abuse, date/acquaintance sexual assault, same gender assault, sexual harassment, sexual exploitation, and human trafficking are some examples of sexual violence.

Central MN Sexual Assault Center (CMSAC) is a 24-hour crisis intervention agency providing direct services to all people affected by any form of sexual violence. The Center's purpose is to offer non-judgmental, confidential, free, trauma-informed, victim-centered direct services to victims of sexual assault, their partners, families, co-workers, and friends.
